Clinic

Learn the Language Your Horse Understands

Under the guidance of Sylvia, renowned liberty trainer and former Cavalia star, learn to connect with memory cues through voice, energy, emotion, and eye contact without whips or lines.

Voice Cues Learn high tones for good memory cues, and learn lower tones for warning cues. Horses will always give up to three warnings before a reaction.

Philosophy Mirroring innate horse herd behavior/body language, herd dynamics, herd movement lines and trajectories.
